Project Name	SMART LENDER
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A prospective loan applicant.	Quickly determine if my loan will be approved before applying.	The traditional banking process is opaque and takes too much time.	Banks rely on manual underwriting that doesn't give me instant feedback.	Anxious and frustrated about my financial future and approval chances.
PS-2	A bank loan officer or administrator.	Efficiently evaluate loan applications and reduce default rates.	I am overwhelmed by the volume of applications and imbalanced data.	Manually reviewing each application is prone to human error and bias.	Stressed and concerned about making inaccurate loan approval decisions.
