

Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Objectives	Overview of the manual loan approval problem and how machine learning solves it.	2 mins	NAGA NANDINI MUMMIDIVARAPU
2	Data Insights (EDA)	Visualizing applicant data correlations and trends using heatmaps and pair plots.	3 mins	GUNA BORRA
3	Preprocessing Pipeline	Explaining the critical step of using SMOTE for imbalanced classes and StandardScaler.	3 mins	MADDULA RATNA PRIYANKA
4	ML Model Training	Walking through the evaluation of Random Forest/XGBoost and the final model selection.	3 mins	SATYA SAI GOPAL GOLLU
5	Live Application Demo	Submitting test applicant details through the Flask UI and showing real-time prediction output.	4 mins	NARAYANA SWAMI CHEREDDY & NAGA NANDINI MUMMIDIVARAPU

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set the context about delays and inaccuracies in traditional loan processing.
2	Solution Overview	Explain the end-to-end data science lifecycle (EDA, Preprocessing, Modeling).
3	Live Feature Demonstration	Show the working home.html, fill the predict.html form, and reveal the submit.html result.
4	Q&A Session	All 5 team members will be available to answer technical and architectural questions.
